

SAFE Instructor Video (Julie Wehrle)

Hello. I'm Julie Wehrle the Security Awareness For Educators course manager.

If you are developing a new security education and awareness program, or want to revitalize an existing program, then this course - also known as the SAFE course -, could be just right for you.

This interactive course offers a blended learning environment to help you address the challenges often associated with many security programs. If you attend a SAFE class you will leave with the skills and tools necessary to gain management support, create an effective security awareness program on a limited budget, and develop - and deliver - effective security awareness products and presentations.

Additional information regarding the SAFE course, including pre-requisite course information, is available from the CDSE course catalog.

I look forward to seeing you in the SAFE class. Thank you.
